GMC

REC. VEHICLES

GMC PICKUPS - brawny,

The basic Pickup design provides you with a versatile vehicle that quickly adapts to meet most camper and trailering needs. With the right equipment, you can accommodate fifth-wheel units, boat and utility trailers or shell and slide-on camper units. Available 4-wheel-drive models give you off-road travel capability into remote camping, fishing, hunting and recreational sites.

GMC WIDESIDE PICKUP MODELS provide a firm bedding for most slide-on camper bodies. Flat-topped wheelhousings and a quick-release, on-off tailgate feature help relieve much of the work of mounting and unmounting camper bodies. With available dual rear wheels on 3500 Series models you get a GVW rating up to 10,000 lbs. Available camper equipment packages provide GMC Pickups with heavy-duty equipment and power team combinations for dependable travel close to home or across a continent.

Camper Special Equipment packages are available on three-quarter and one-ton C/K models equipped with V8 engines and available four-speed manual or automatic transmissions. Equipment includes special nameplates with GVW rating, color-coded seven-wire camper body wiring harness, heavy-duty front stabilizer bar, heavy-duty front springs, (standard on some models), increased radiator capacity in combination with available automatic transmission and full capacity rear springs for applicable models.

Deluxe Camper Package for Wideside models with over-cab type camper bodies includes the basic equipment listed in the previous package plus Elimi-Pitch stabilizers for camper body cab-over section and between cab and cargo box for camper body pitch control. The accompanying charts can help you spec your Pickup to meet your camper size and weight requirements.

TRAVEL THE HIGHWAYS AND BYWAYS IN COMFORT

Put in a full day's travel and still arrive looking good. GMC Pickups offer available Comfort and Convenience Equipment to ease the hours of travel. Available air conditioning with integral in-dash directional vents lets you keep your cool even on those hot days. Pass the time in listening enjoyment with available

AM or AM/FM radio. For those with a keen interest in what's happening down the road, select a Delco CB unit. Available power steering permits good control and helps ease driving effort. With Comfortilt steering wheel, you can adjust the steering angle to any one of six positions for driver comfort.

Available speed and cruise control maintains constant road speed. Two-door cab models offer available power windows and door locks and dual controls on driver's side control passenger window, a handy feature on solo trips. Let your GMC dealer show you the comfort and convenience of a GMC Pickup.

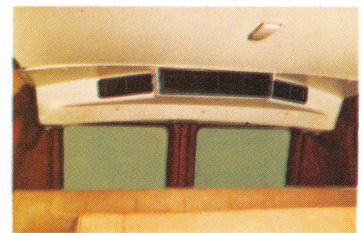

Required power brake and heavy-duty power brake systems (standard on some models) are computer-matched to available GVWR's. Standard floating caliper-type front disc brakes feature an audible wear sensor warning device on models of 8400-lbs. GVW or under. Rear drum brakes are air-finned cast iron for efficient heat dissipation and cooling.

TRAILERING

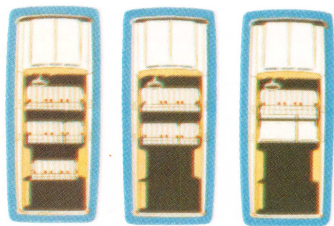

With available factory- or dealer-installed weight distributing hitch platform you can handle up to 17,000 lbs. GCW by properly selecting available driveline components. Included in the available Trailering Special Package are: heavy-duty Delco Freedom battery, integral power steering and Trailering Special emblems with GCW rating. Available dead weight trailer hitch lets you tow up to 2000 lbs.

SUBURBAN... the big station wagon

Available dual air conditioning features a separately-controlled, ceiling-mounted rear unit that recirculates inside preconditioned air and a front unit that cools and dehumidifies outside air. Front unit is available separately.

Suburban models combine great styling and passenger comfort with tough truck value and cargo-hauling capacity. One-half- and three-quarter-ton models are available with two- or four-wheel-drive and offer GVW ratings up to 8,400 lbs. With available middle seat folded and rear seat removed you get an interior load space of 144 cubic feet with a payload capacity of 3,100 lbs. on three-quarter-ton models with available equipment. Proper selection of engine and driveline components enables you to tow gross combination weights of up to 14,500 lbs. Maintaining driver and passenger comfort is easy with available front and rear air conditioning, speed and cruise control, Comfortilt steering wheel, dealer-installed AM, AM/FM and eight-track stereo combinations, power tailgate window or automatic transmission. Trailering Special equipment includes H.D. battery, integral power steering and Trailering Special emblems.

AVAILABLE SEATING FOR NINE

Standard seating includes the three-passenger front bench seat. Available three-passenger center seat features independent right- and left-hand forward folding sections. Seating for nine is possible with the available fixed-position third rear seat.

§Automatic Transmission, 4-speed (M20/M40) required for trailering and V8 engine.

Minimum Equipment Required for Trailer Special Packages: (RPO Z82) which includes power steering, H. D. battery, nameplate. To obtain (RPO Z82) the following must be ordered: M20/M40 transmission, (K-76) generator, heavy-duty cooling, L78-15B tires, (G-50) springs and JB5 brakes. See your GMC dealer for details.

VANDURA

...lets you be creative

The same practical van value that makes Vandura a popular choice for straight commercial van applications also makes it an ideal choice for recreational and custom uses. Take advantage of the 125" wheelbase. Vandura's maximum interior space of 296 cubic feet helps add to the customizing features to suit your tastes. Available equipment includes: AM or AM/FM radio, rear speaker for added music listening and enjoyment; speed and cruise control, power steering, automatic transmission, Comfortilt steering wheel for driving comfort, regular high-back driver and companion bucket seats have vinyl trim, reclining high-back, swivel driver and companion seats are trimmed in choice of deeply embossed custom vinyl

or custom cloth and vinyl in exciting new colors and patterns.

New Personal Use Package, Gypsy (ZM1) and Gaucho model, offer the custom van enthusiast two different interior trim combinations. The Gypsy Option Package (ZM1), shown at right, includes; driver and companion reclining, swivel bucket seats with integral armrests; entire roof and walls and upper half of doors in rear cargo area are insulated with thick fiber glass then covered with attractive finished plywood paneling; full-length black rubber floor mat over insulation, including wheel housings makes it easy for you to trim-out the interior the way you want it.

Gaucho model, top right, offers

a finished van interior designed for spacious, comfortable passenger seating for five, plus large cargo area with tie-down provisions for bikes, snowmobiles or your special machine. Cargo area has finished plywood paneling over thick insulation. Leave it or finish to your needs and taste.

Available 110" and 125" wheelbase dimensions with GVW's up to 8,400 lbs. make Vandura models a popular choice for recreational vehicle conversions.

Available equipment gives Vandura added versatility by providing for trailering up to a GCW of 11,500 lbs.

SPRINT

The Elegant, Practical Machine

Sprint offers pickup cargo carrying capability with sedan-like styling and comfort with available comfort and convenience equipment. The practical 6½-foot cargo box allows general utility hauling while available dealer-installed factory trailer hitches provide for

towing up to 4,000 lbs. of trailer and load. There are extra features like the standard air adjustable rear shock absorbers that trim Sprint's attitude to compensate for varying tongue loads and help prevent bottoming out. Let your GMC dealer tell you more about Sprint.

TONNEAU CARGO BOX COVER AND CARGO BOX SIDERAILS

Give your Sprint that added touch of elegance with an attractive tonneau cargo box cover. Available in either black or white vinyl. Cargo box siderails are also available.

MINI-MOTORHOMES

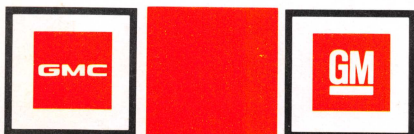

Mini-Motorhomes take full advantage of the proven light-duty forward control van design of GMC's Rally Camper Special model. R.C.S. chassis are available in 125" and 146" wheelbase dimensions with standard 350 CID, 4-bbl., V8 or available 400 CID, 4-bbl., V8. Other standard equipment features include integral power steering, automatic transmission with, heavy-duty cooling, 33-gallon fuel tank, heavy duty generator, power front disc and rear drum brakes (heavy-duty power on 146" wheelbase models) and

front stabilizer bar. A heavy-duty battery and gauge-type instrument cluster are also included for 146" wheelbase models. The 125" wheelbase models provide a GVW capacity of 8,900 lbs. with available dual rear wheels. The 146" wheelbase model with standard dual rear wheels, hefty 7,500-lb. capacity Dana rear axle and increased capacity springs provides a GVW rating of 10,500 lbs. for larger, longer bodies. Your GMC dealer can help you choose the model to meet your needs.

Vehicles shown illustrate standard or available factory-installed equipment unless noted as dealer installed accessories. Items referred to as options or available are at extra cost. Different model applications of the components that are listed in accompanying tables as well as other items of factory-installed equipment may be ordered through your GMC Dealer.

GMC Truck & Coach Division reserves the right to make changes at any time without notice in prices, colors, materials, equipment, specifications and models and also to discontinue models. Data shown is basic information for the prospective buyer effective at time of issuance of this pamphlet. Dealer will provide complete up-to-date information on available equipment, specifications, etc. not shown here.

GMC TRUCK & COACH

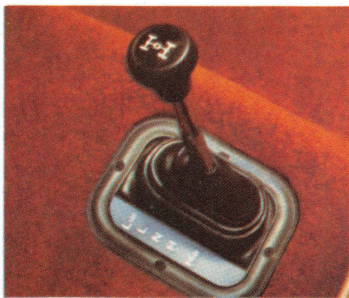

GENERAL MOTORS CORPORATION

Pontiac, Michigan 48053

JIMMY

the track maker

Jimmy 4-wheel-drive models demonstrate a well-mannered breeding on the highways and freeways but a yearning for adventure in out-of-the-way places beyond the boundaries of concrete roads. Jimmy can accommodate your needs in comfort and style with seating available for up to five, ample cargo space, two- and four-wheel-drive models and an available Trailering Package that includes heavy-duty battery, power steering, nameplates and provisions for gross combination weight ratings up to 10,500 lbs. Lets you tow camper or utility trailers up to 6,100 lbs. Standard driver's seat plus available companion front bucket and three-passenger rear bench seat lets five ride inside. Removing the rear seat provides interior cargo space for camping or work gear. With an available fast-folding soft top you can ride Safari-style with the sides rolled up or in the sun with top compactly folded away. It's our convertible.

FULL-TIME FOUR-WHEEL-DRIVE

Full-time four-wheel-drive is included on Jimmy "K" models with available automatic transmission. A simple five-position control lever lets you control transfer case from inside the cab. No getting out to engage front hubs. Constant drive power at all four wheels lets you enjoy balanced traction and driving power at all times. A Trailering Special Package is available that lets you tow up to 6,100 lbs. Conventional four-wheel-drive model, including free-wheeling front hubs, is standard with manual transmission.

JIMMY CASA GRANDE

The Casa Grande fiber glass reinforced plastic camper body is available as an integral unit on four-wheel-drive Jimmy models. Get on-the-trail comfort with an expandable top that allows over six feet of headroom. Interior features include two-burner LPG stove, icebox, five-gallon water tank, stainless-steel sink and drain, demountable dinette table, indoor-outdoor carpeting, curtains and sleeping for two. Available overhead bunks let you sleep two more. It's super to go 4-wheelin' with a Casa Grande.

RALLY

Rally Wagon and STX models are available in 110" and 125" wheelbase dimensions and in one-half-, three-quarter- and one-ton models. Take advantage of the carrying capacity combined with comfortable available seating for up to twelve.

A quick-release feature on the standard and available rear seats quickly converts Rally from a people mover to a cargo hauler. Rear catch hooks and front cam-type latches lock onto anchor pins in the floor anchor plates. Releasing the front latch allows seats to be quickly removed for big cargo utilization. With proper selection of available engine and driveline components you have added versatility for camper or utility trailers up to 6860 lbs.

Standard or Custom Rally interiors feature low-back front bucket seats or available high back front bucket seats and a rear passenger bench seat with embossed all-vinyl trim. Rally STX interiors feature high-back front bucket seats and a rear passenger bench seat, choice of durable custom vinyl or custom cloth and vinyl trim and full-length, color-keyed carpeting. Reclining, high-back swivel front bucket seats with integral folding armrests and custom cloth and vinyl trim are available.

Standard Rally seating includes front driver and passenger bucket seats plus standard three-passenger rear bench seat. Seating for eight on three-quarter- and one-ton models is provided with available second rear passenger seat. Twelve-passenger seating capacity is available on one-ton models with available four-passenger third rear seat. Seat belts are provided for all passenger seating locations.

our biggest wagon

GMC Rally Wagon and STX models with roomy passenger comfort and big cargo capacity are ideal for family vacation travel. Interior comfort and convenience features help ease the hours of long distance driving. Available dealer-installed AM or AM/FM radio and 8-track stereo combinations provide

listening entertainment and enjoyment. Available power steering, Comfortilt steering wheel and speed and cruise control provide reduced driving effort. Generous cargo capacity and trailering capability allow room for gear. GMC Rally — for real enjoyment value. See your GMC dealer.
